Police Department: 972-625-1887

Police, Fire respond to storm damage

THE COLONY, Texas — Severe weather moved through The Colony this morning, leaving some damage to homes and buildings in its wake.

Police are going door-to-door in The Legends subdivision and other neighborhoods in the southern parts of the city to check on the safety of residents, where the storm caused damage to fences and windows. Public Works crews are also in the area to remove debris from streets and alleyways.

Trash service has also been suspended until the affected areas are cleared.

Traffic lights are out along State Highway 121, where police are now directing traffic. Repair crews have been called out.
